Centennial Tenants Association Luncheon

By Todd Moen

On Tuesday, August 11, several members came out with their boats on the South Pond to put on a display for all the tenants of the Centennial Lakes complex of buildings during their luncheon on the patios. It is my understanding, that many tenants were there with several questions for the club members

SCHEDULE OF EVENTS:

October 20, Tuesday7:00 p.m- 9:00 p.m.Membership Meeting
November 17, Tuesday7:00 p.m- 9:00 p.m.Swap Meet
November 21, Saturday6:00 p.m- 9:30 p.m.Dry Dock Party

COMMODORE'S CORNER

By **John Bertelsen**

Todd Moon would like it if you could bring your boats that have not

been on the water this year to a Sunday afternoon at the ponds for some photos and filming for the end of year DVD's. You don't need to contact Todd, just show up through mid October.

· Kevin Waldo is looking for 1/20 scale figures for his boats. Let Kevin know if you have a source for people figures and objects.

· The next membership meeting is Tuesday, October 20th, which will have Curt Peterson doing the last presentation of the year. Sometime in October is the 2/3 Pond Races. These are usually on a spur of the moment basis as fall weather is typically changing quickly so watch for an email on when it is to be held and help spread the word by notifying anyone you can think of who might be interested in attending. The last get-together is the November 17th meeting which is the Swap Meet.

· The dry dock party is November 21st. Look for a flyer in the next newsletter (after the Light House Night issue) with further information.. --John Bertelsen

BUILDER'S CORNER

SAGINAW PROJECT

by Todd Moen - from Paul Coffey (a member of the Edina Model Yacht Club Facebook Page)

This Great Lakes self-unloading bulk carrier is a work in progress by Paul Coffey who will soon join our ranks as a member. He will eventually have a working crane for cargo handling. He hopes to have it running by next Parade of Boats, while still in the final building stages. It will certainly be a very large boat at 9 feet long. On the photo below, using marine expo inside and out. The two motors you can see are ballast pumps. The whole midsection is a ballast tank that hold over 4 gallons of water. Notice the yard sticks.
